SONETTO

## ITALIAN POETRY

Derived from the Italian word for "sonet," meaning "little song," Sonetto G2 pays homage to the rich traditions of both Italy and Sonus faber.

Featuring our signature artisanal craftsmanship and innovative design, each individual driver is custom-engineered specifically for this collection.

SONETTO

FLAGSHIP AUDIO,  
REINVENTED

The second generation from the award-winning Sonetto series, Sonetto G2 is the first collection to incorporate acoustic technologies specifically designed for the Suprema system, the elite flagship of the Sonus faber catalog.

# *Sonus faber*

## SONETTO

### SONETTO G2 COLLECTION

The Sonetto G2 Collection embodies the essence of Sonus faber, pushing the boundaries of technological innovation and material excellence to new heights. This family of seven speakers offers a wide range of immersive and innovative setup possibilities. Sonetto captures the legacy of Italian poetry, transforming it into a sonic and musical experience through our tradition of natural materials for a Natural Sound.

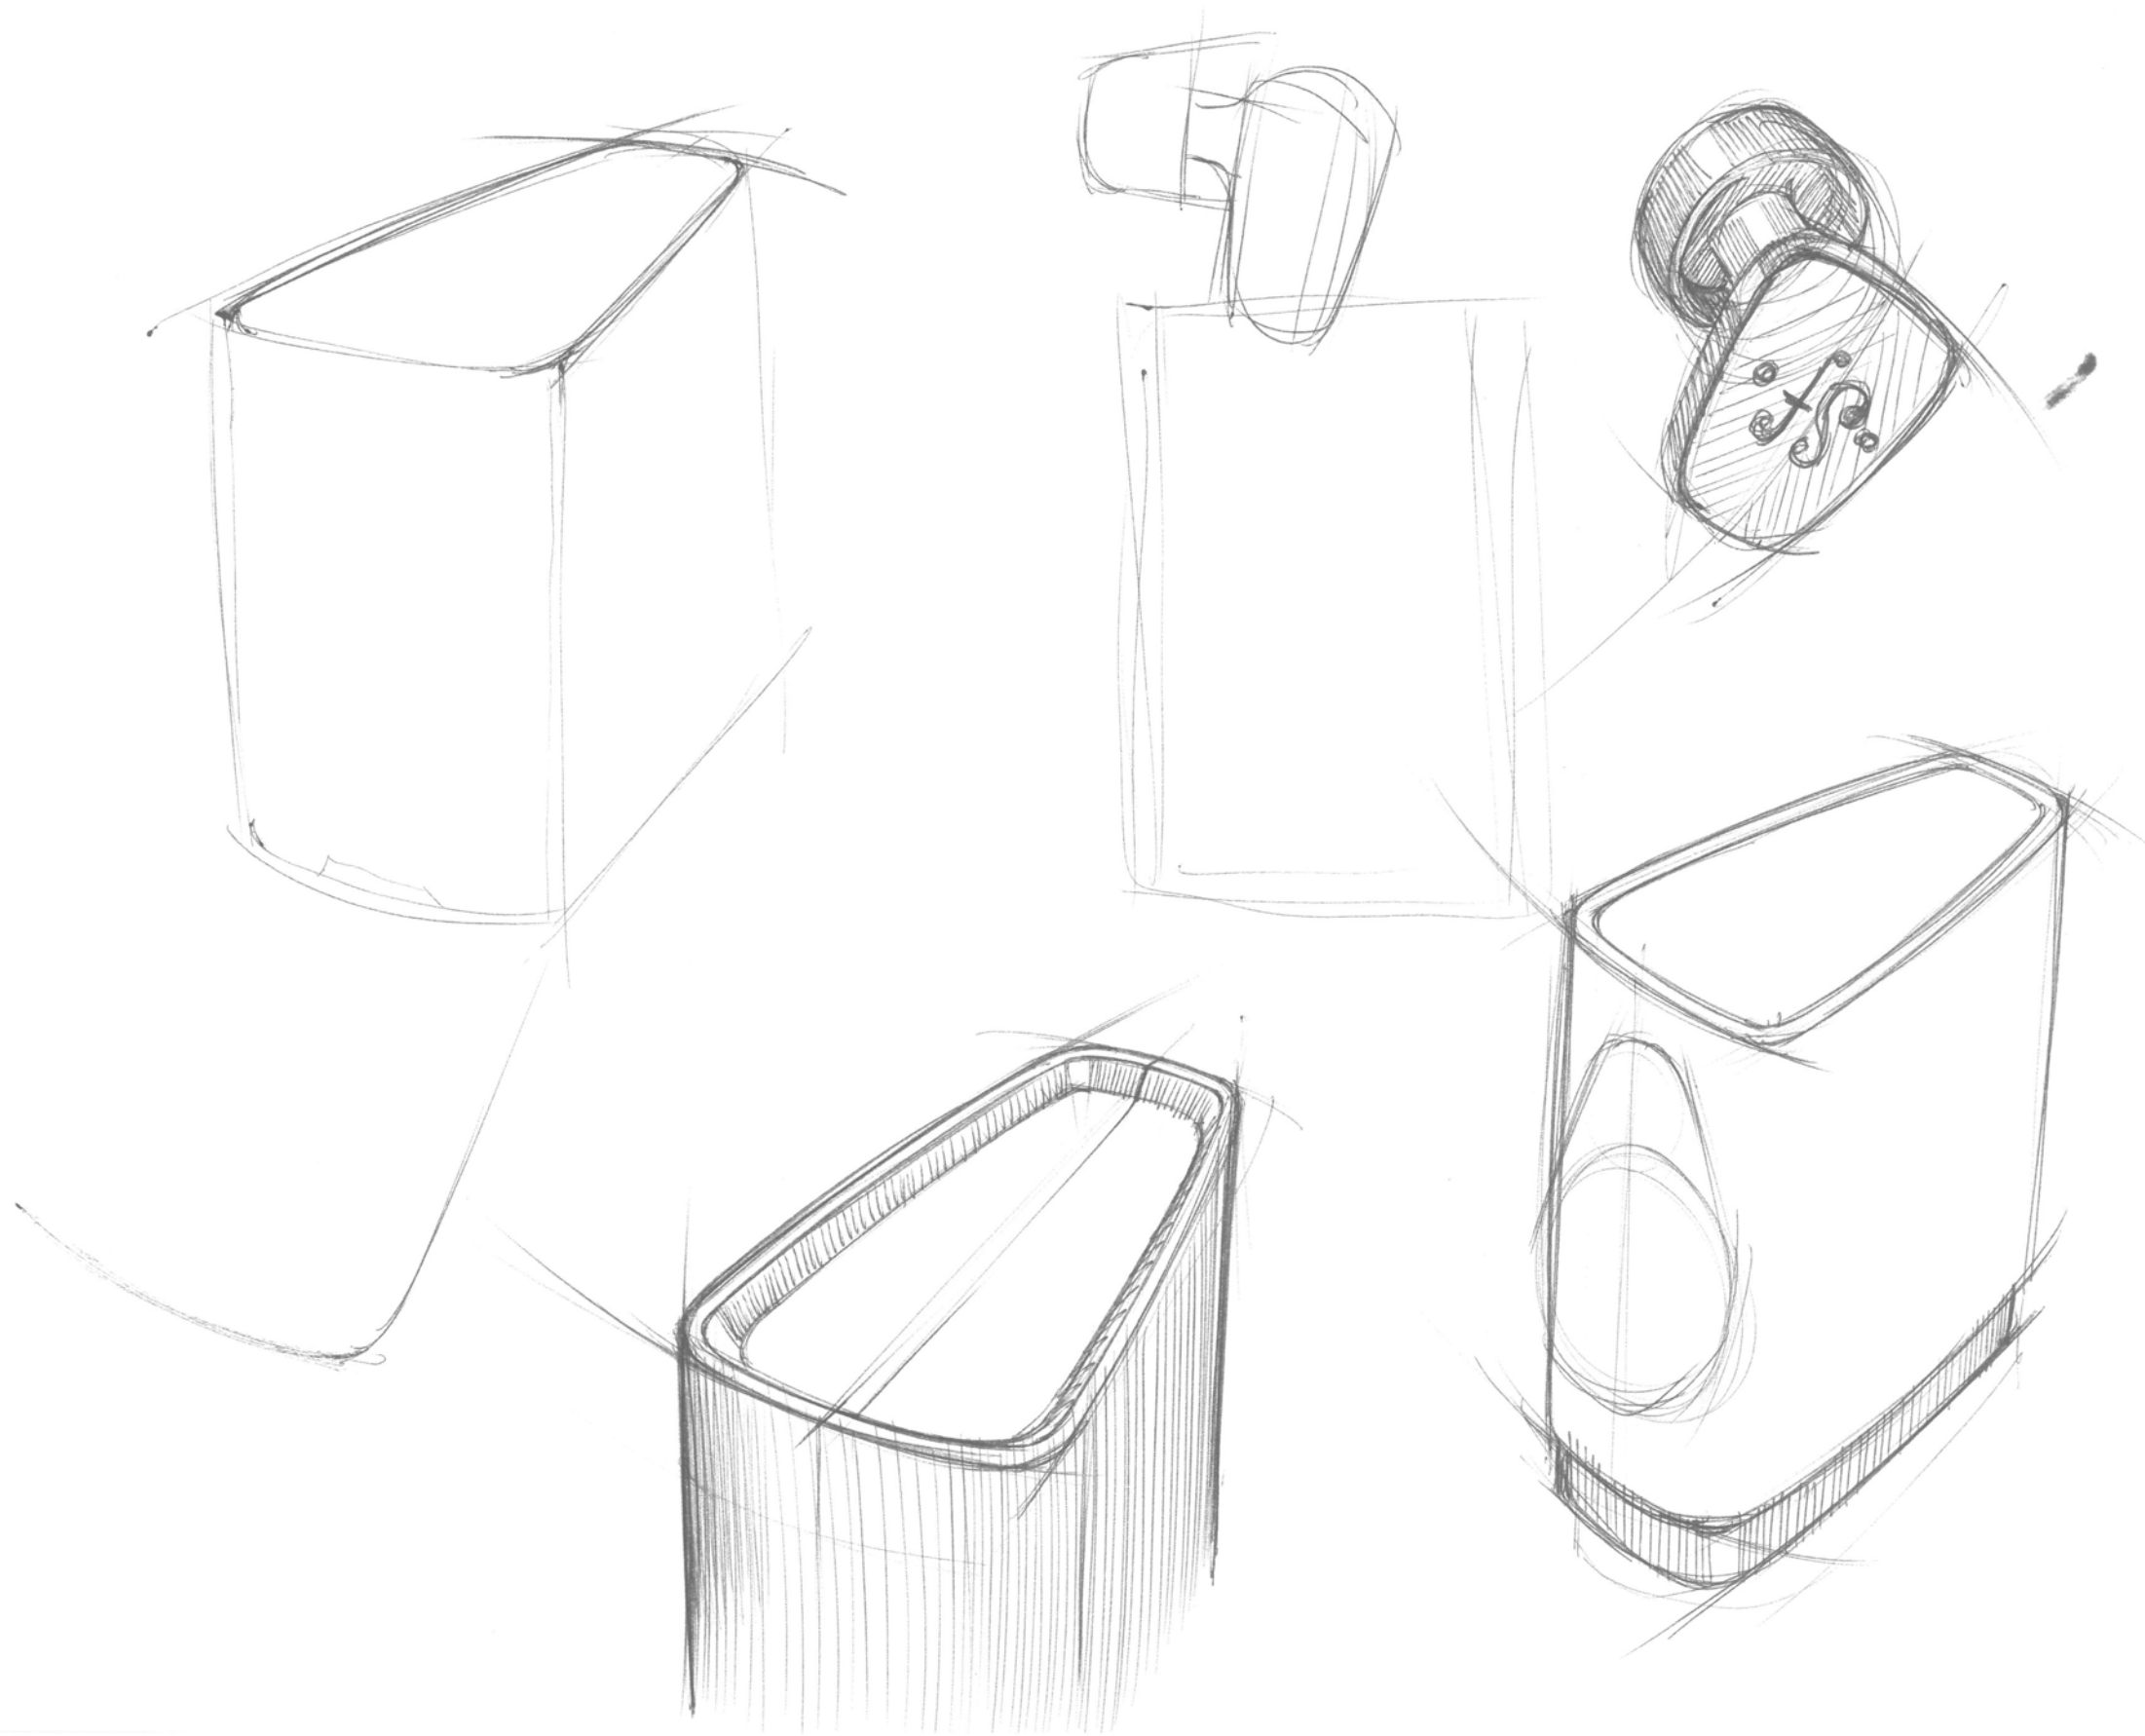

Featuring three floorstanders, two bookshelf speakers, a center channel, and a wall-mounted speaker, the Sonetto Collection has everything you need to meet the audio demands of even the most discerning environments. Its versatile approach to listening satisfies both audiophiles and music enthusiasts alike.

Each technology is specially developed for this collection, with meticulous attention to every production detail to ensure the highest possible listening experience.

# *Sonus faber*

## SONETTO

### CORE FEATURES

Lute-shaped speakers, an iconic Sonus faber design element, combines aesthetic elegance with high-fidelity sound, optimising sound dispersion for an immersive listening experience. Focusing on natural materials, true to Sonus faber tradition, Sonetto G2 follows Suprema's innovative cork internal chamber design and the Camelia midrange. Harnessing cork's acoustic properties, the speakers enhance mid-high frequencies resolution and Natural Sound quality. In addition, the familiar high-quality wood cabinets have been enhanced with a new concrete base to provide superior stability and better vibration management.

*Sonus faber*

## CORK CHAMBER

The special combination of tweeter and midrange drivers is housed within a distinctive cork chamber, specifically to avoid internal resonances and enhance the drivers' performance. Inherited from the flagship Suprema speaker, the acoustic properties of this material significantly contribute to the clarity and organic sound of the midrange output.

Models: V, VIII.

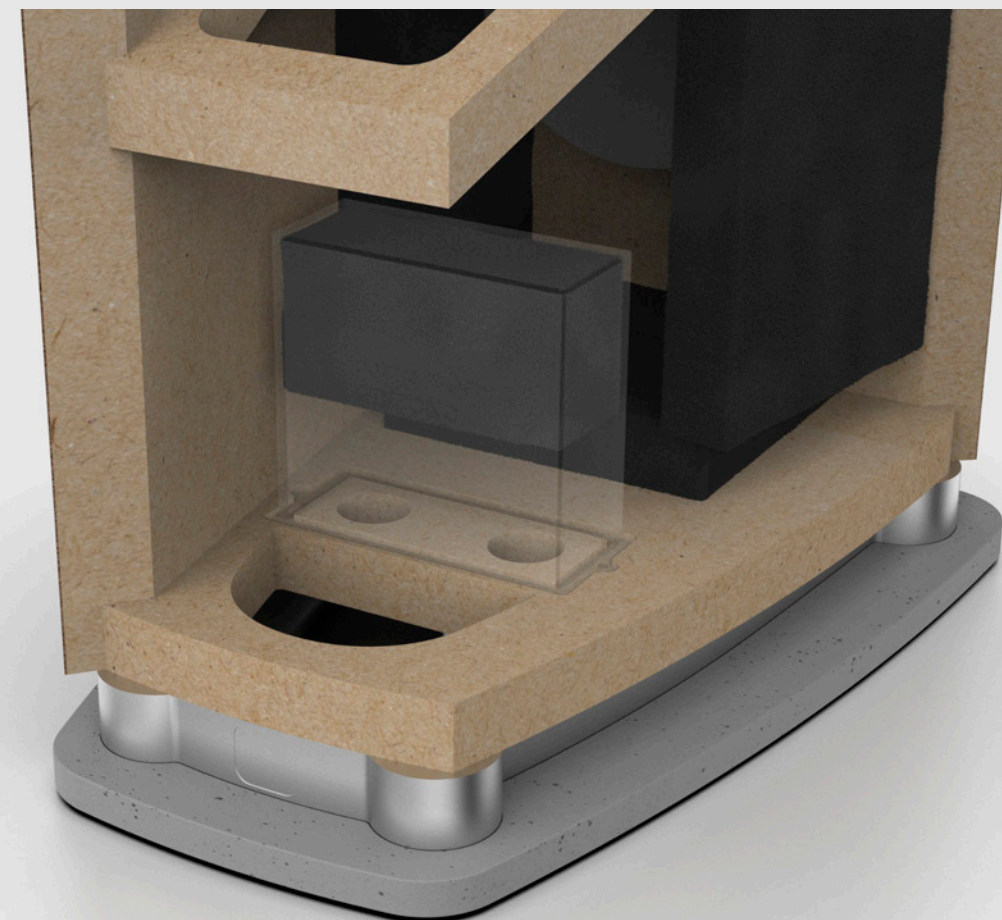

*Sonus faber*

## INTONO TECHNOLOGY

Sonus faber's Intono technology provides a construction solution designed to avoid unwanted frequencies and distortions within the cabinet, resulting in a quieter and overall improvement of the listening experience.

Implemented in the Sonetto I and II speakers, Intono is positioned between the reflex duct and the internal acoustic chamber.

Models: I and II.

*Sonus faber*

45°  
WOOD

The wood veneer with a 45° finish, renowned in prestigious products like the Stradivari, Amati, and the entire Homage series, also graces the design of the new Sonetto G2 collection. This 45° angle wood veneer not only enriches the style of this unique collection but also accentuates the hand-crafted artistry that defines Sonus faber.

Models: All.

*Sonus faber*

CONCRETE  
BASE

The introduction of a new concrete base in the Sonetto G2 series enhances speaker stability and reinforces structural integrity. This innovative addition provides a solid foundation, minimising vibrations and ensuring optimal performance, particularly in demanding listening environments.

Models: I, II, III, V, VIII and Stand.

*Sonus faber*

## REFLEX DUCT

Sonetto G2 boasts a newly optimised duct design, strategically engineered to enhance flexibility in speaker placement.

Whether a Sonetto G2 speaker is positioned in a corner, against a wall, or in a freestanding configuration, the enhanced duct design ensures optimal airflow and resonance control, resulting in pristine sound reproduction across various room setups.

Models: I, II, III, V and VIII.

*Sonus faber*

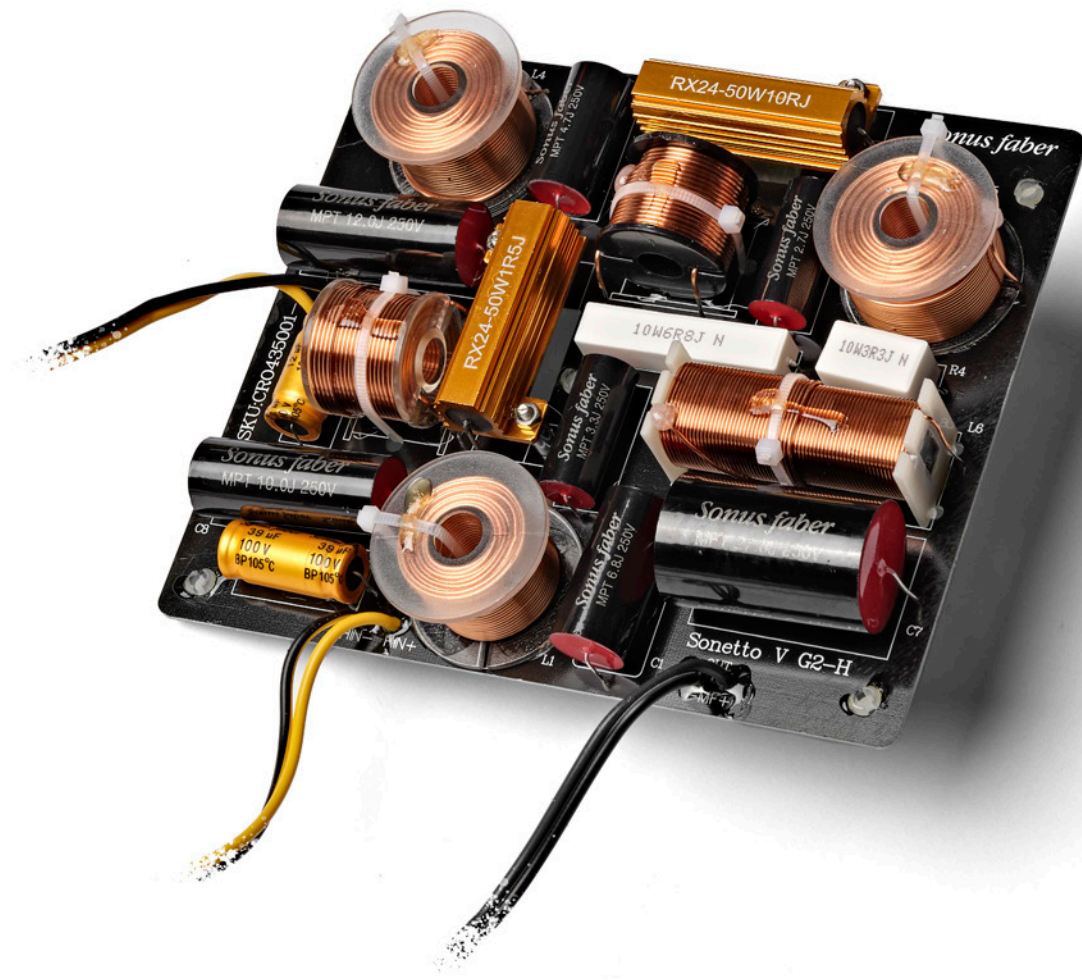

## LEATHER FLANGE

The new Sonetto collection features flanges enhanced by the Italian tradition of leather craftsmanship. This unique touch sets Sonus faber apart in the world of high-fidelity luxury speakers. Renowned for their mastery of this artisan detail, Sonus faber takes pride in bringing unparalleled elegance and craftsmanship to their designs.

Models: All.

*Sonus faber*

## PHASE COHERENT CROSSOVER

The Phase Coherent Crossover design philosophy implemented in the Sonetto G2 Collection ensures precise synchronisation of the drivers' phase rotations, striving for maximum parallelism. This meticulous alignment results in an immersive soundstage that is incredibly defined and palpable, allowing audiophiles to experience music with a heightened sense of realism.

Models: All.

*Sonus faber*

## BINDING POST COVER

The round binding post cover, adorned with the Sonus faber logo and available on all Sonetto G2 models – except Sonetto Wall – serves both a functional and decorative purpose.

Designed specifically for bi-wiring binding posts, the cover ensures the integrity of the connections while adding a touch of refinement to the rear panel of the speakers.

Models: I, II, III, V, VIII and Center.

*Sonus faber*

## ORGANIC BASKET

Our organic basket exemplifies the fusion of advanced technology and nature-inspired design principles for enhanced sound reproduction. Found not only in our Reference, Homage and Wireless Collections, but also in the Sonetto G2 series, the basket's asymmetrical shape provides structural support to the driver without recurring patterns. This distinctive, nature-evocative design promotes superior airflow around the driver, ensuring impeccable sound quality.

Models: *All.*

*Sonus faber*

## SILK DOME TWEETER

The tweeter in the Sonetto G2 collection features state-of-the-art Silk Dome DAD™ (Damped Apex Dome) technology. With a response extending beyond 30kHz, made possible by the incorporation of a copper cup, the tweeter reproduces the finest nuances in the audio spectrum, ensuring exceptional clarity, detail and pristine sound.

Models: *All.*

*Sonus faber*

## CAMELIA MIDRANGE

Initially developed for our flagship model, Suprema, the Camelia midrange speaker features an organic basket with a membrane inspired by the shape of a camelia flower. The five-cut design avoids the resonances typical of circular shapes, enhancing the signature Natural Sound of Sonus faber. To ensure total sound purity, the membrane is left unpainted.

Models: V, VIII, Center.

*Sonus faber*

## FLOWER PATTERNED SURROUND MID-WOOFER

The rubber driver surround showcases a unique floral pattern that encases the sandwich cone structure of the mid-woofer. Its asymmetric shape disrupts the circular modes of the driver, ensuring greater linearity in sound reproduction. This innovative design reduces interference and improves sound dispersion, resulting in a clearer, more precise mid-range audio experience.

Models: I, II, III and Wall.

*Sonus faber*

## FLOWER PATTERNED SURROUND WOOFER

The rubber driver surround features a unique floral pattern that encases the sandwich cone structure of the Sonetto woofers. Its asymmetric shape disrupts the circular modes of the driver, ensuring greater linearity in sound reproduction. This design reduces interference and improves sound dispersion, delivering incredible low-frequency performance.

Models: III, V, VIII, Center.

*Sonus faber*

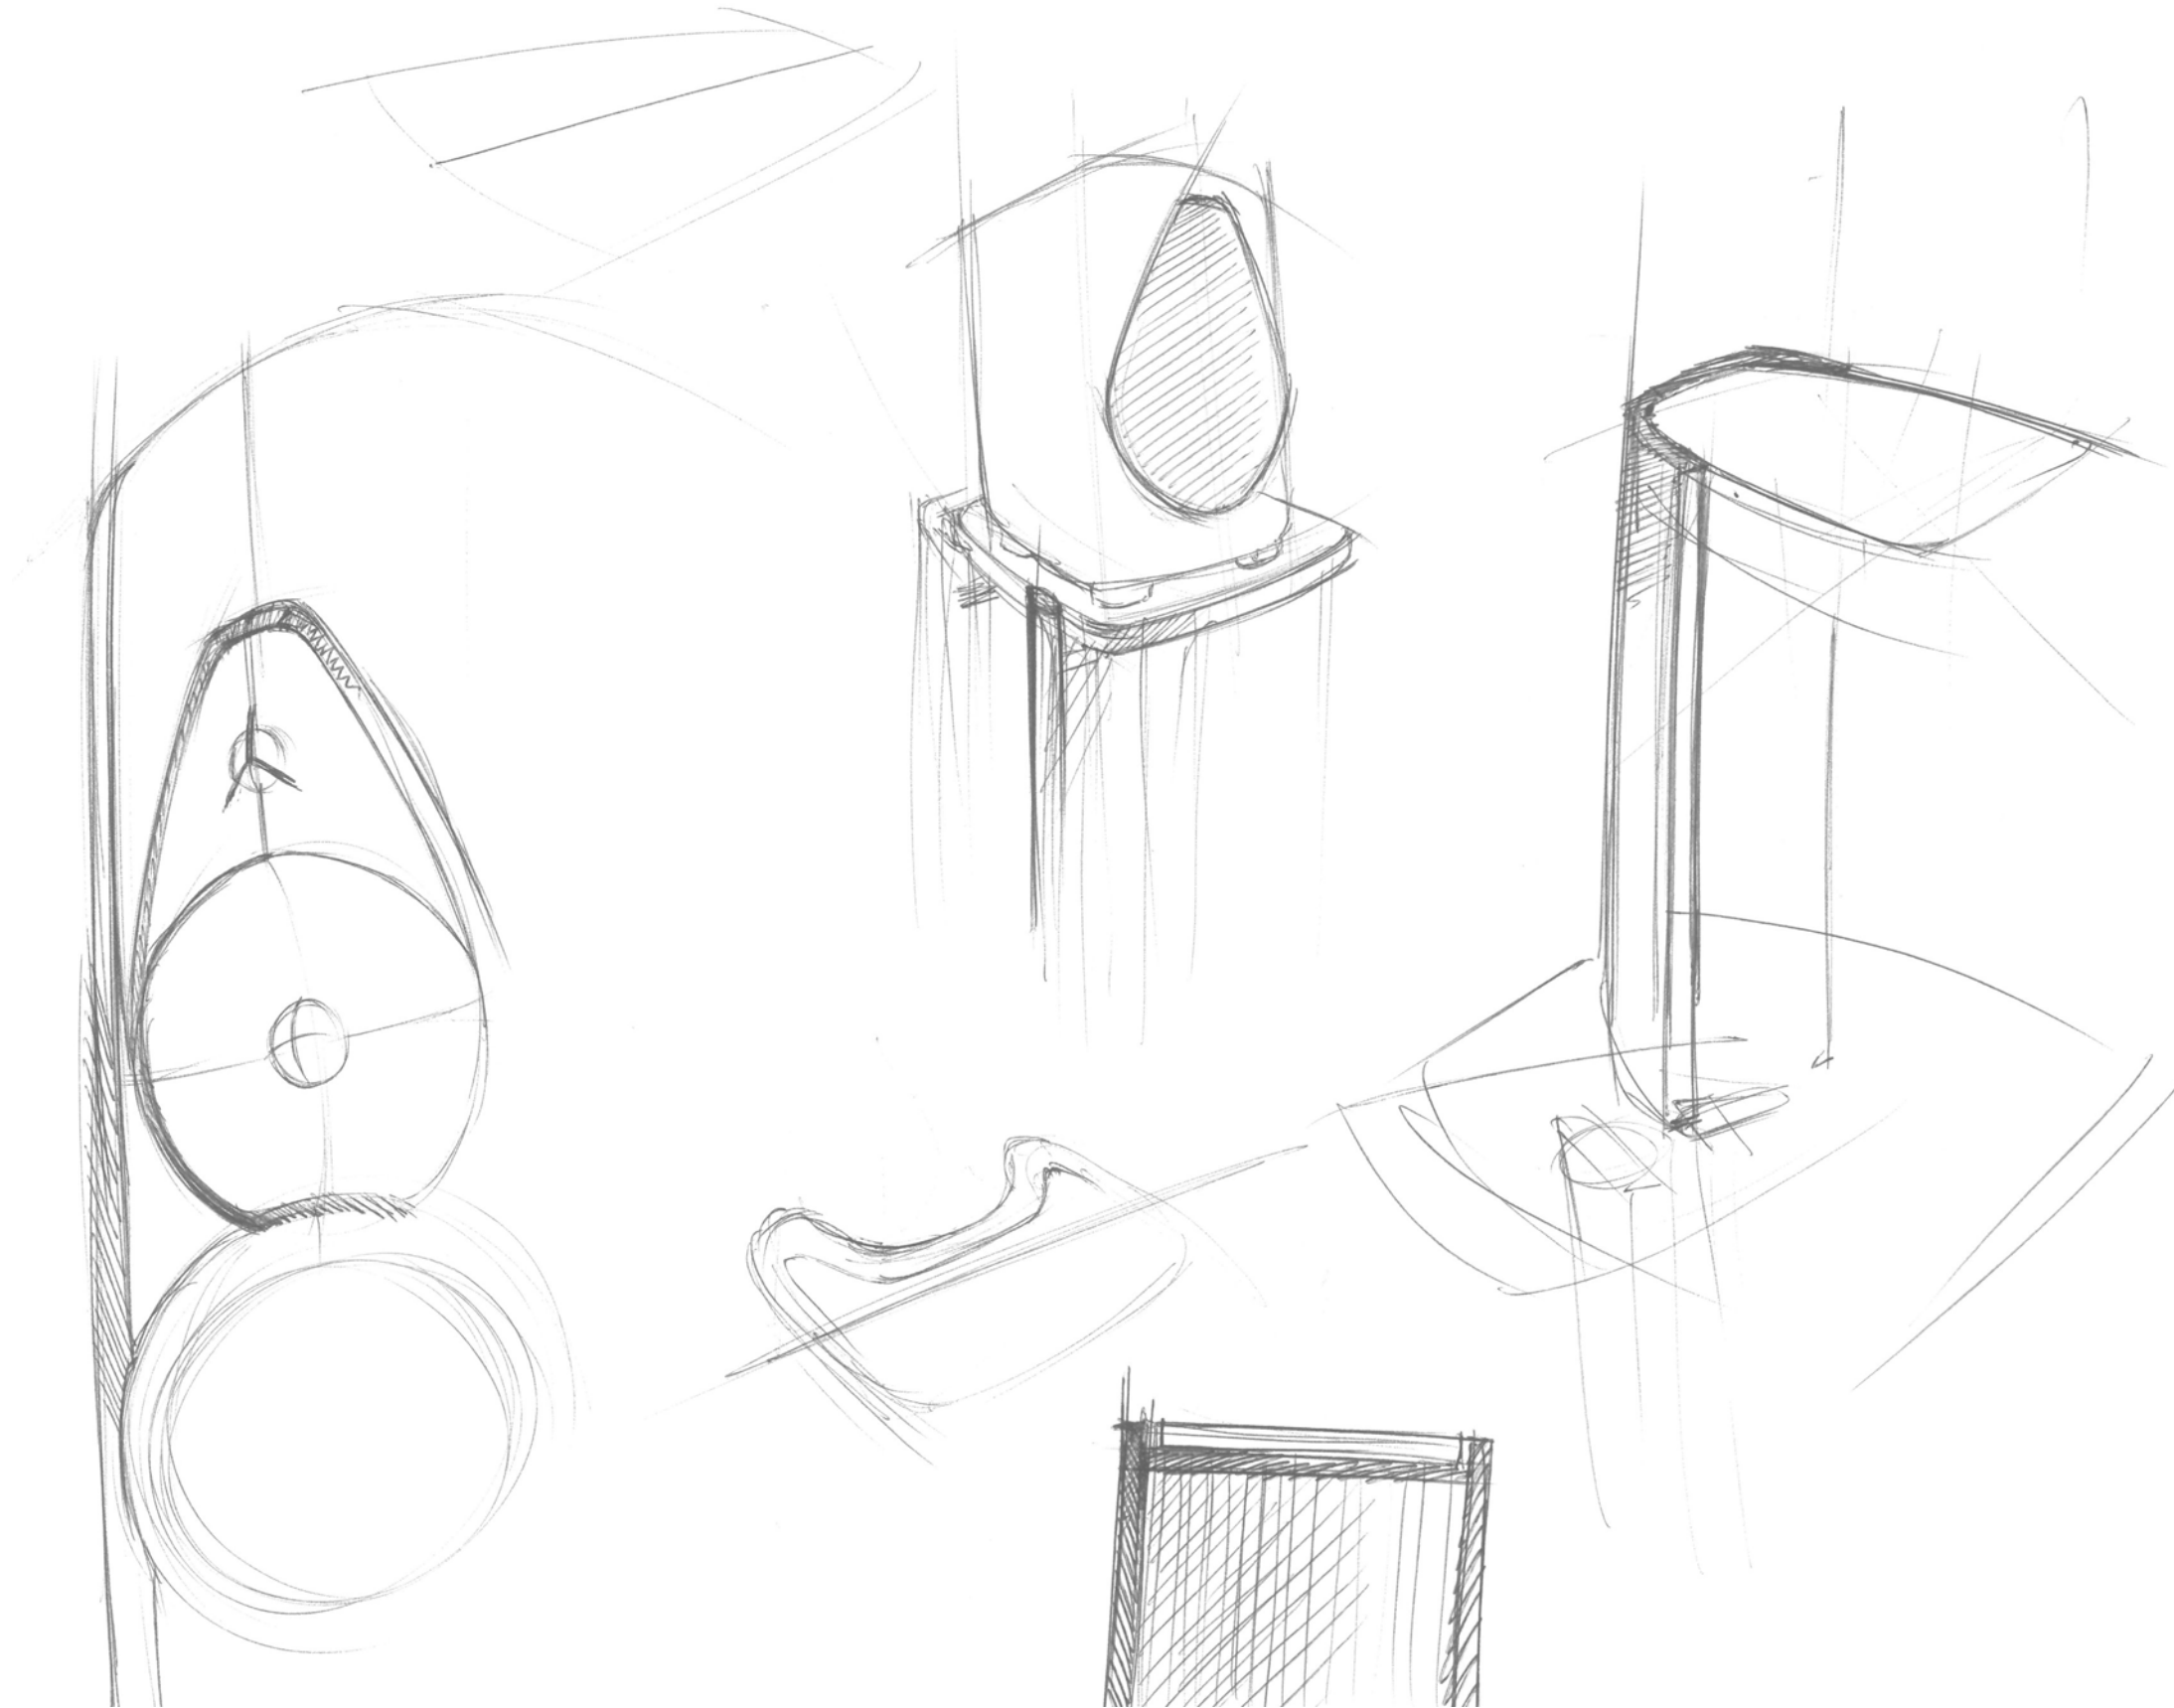

## DERIVED FROM SUPREMA

A testament to Sonus faber's enduring pursuit of sonic excellence. Derived from the legendary Suprema, the greatest audio system in Sonus faber's illustrious history, the Sonetto G2 series embodies a bespoke design philosophy. Each driver is meticulously engineered for unparalleled performance, incorporating advanced acoustic technologies developed specifically for the Suprema system, unveiled earlier this year.

This series brings the pinnacle of artisanal craftsmanship and audiophile refinement to discerning enthusiasts worldwide, offering a glimpse into the unparalleled legacy of Sonus faber's flagship systems.

SONETTO

## THE MODELS

Composed of seven essential designs, the Sonus faber Sonetto G2 Collection is a versatile solution for a diverse array of listening environments.

Featuring three floorstanders, two bookshelf speakers, a center channel, and a wall-mounted speaker, the Sonetto Collection has everything you need to meet the audio demands of even the most discerning environments. Its versatile approach to listening satisfies both audiophiles and music enthusiasts alike.

# I

“As strong as it is small.”

The Sonetto I, the smallest model in the Sonetto G2 Collection, is a perfectly balanced bookshelf speaker designed for effortless setup. Its front-facing, optimised reflex duct envelops the listener in an immersive sound experience. Whether used as a standalone speaker or mounted on its dedicated stands, the Sonetto I is the ideal sound solution for smaller spaces.

Sonetto I creates a remarkably precise and immersive soundstage. The innovative design of this high-fidelity speaker reproduces music with heightened realism and depth, providing an optimal listening experience for discerning audiophiles.

Optional Sonetto stands are available for enhanced placement and performance.

## II

“Elegant and elusive.”

The Sonetto II bookshelf speakers embody the rich heritage of Italian craftsmanship and tradition. They offer exceptional sound quality and resonate with a profound appreciation for artistry and culture.

The Sonetto II is a 2-way speaker that not only inherits but elevates the distinguished Italian style of its predecessor. With refined materials, sophisticated design, and enhanced acoustical advancements, the Sonetto II recreates sound with an intense, unprecedented emotional impact and surprisingly powerful bass reproduction.

Optional Sonetto stands are available to further enhance their performance and placement.

## III

“A harmony of power and elegance.”

The most compact floor-standing loudspeaker in the Sonetto G2 Collection, Sonetto III packs impressive power.

Looks can be deceiving. Despite its slim dimensions, Sonetto III has the commanding presence of a much larger speaker, thanks to advanced technologies and design solutions. Its exquisite aesthetic appeal has been enhanced with a new concrete base, designed for improved structural integrity and effortless installation.

# V

“Classic Artisanship,  
Unique Character.”

The larger Sonetto V, a 3-way floorstanding speaker, embodies the core design principles of Sonus faber with an intense and lively voice. It captures the dramatic elements of sound to craft a steadfast soundstage.

Sonetto V represents a fusion of technological innovation and artistic craftsmanship, creating an engaging sound that captures the passion of music.

## VIII

“Power and elegance.”

The Sonetto VIII encapsulates the organic legacy of the Suprema system in a 3-way floorstanding speaker. This exemplary piece converges the iconic elements of Sonus faber, blending a design philosophy based on Natural Sound and natural materials with a visionary pursuit of sonic excellence. Hand-crafted in Italy, the Sonetto VIII embodies high-end luxury.

As the most powerful 3-way speaker in the Sonetto collection, the Sonetto VIII features a unique pairing of tweeters and midrange drivers encased in a bespoke cork chamber. This chamber is meticulously designed to optimise internal volume and enhance driver performance. Borrowed from the flagship Suprema speaker, the acoustic properties of cork play a pivotal role in enhancing midrange clarity and delivering a natural, organic sound.

# Wall

“Sophisticated Versatility for Optimised Performance.”

Sonetto Wall is a versatile high-fidelity loudspeaker designed for wall mounting, providing an immersive home audio experience.

Its adjustable jointed bracket allows the Sonetto Wall to meet various sound needs, making it highly adaptable. It is the perfect choice for those looking to create a space-efficient two-channel audio system or integrate it seamlessly into their home theater setup.

In the Sonetto Wall, design and performance go hand in hand, each enhancing the other. Easy to install and orient, Sonetto Wall optimises sound even in challenging environments.
